

**REDWOOD RD002
FUELS MANAGEMENT PRESCRIPTION – CHANGE 1**

FUELS TREATMENT PRESCRIPTION:

For clarification, add to Initial Treatment:

Pine

All pines up to 12" dbh may be removed. Up to 50% of pine trees between 12" dbh and 24" dbh and up to 40% of pine trees greater than 24" dbh may be removed. Emphasize retention of larger, healthier trees. Target spacing between residual large pine (24" dbh and larger) is 25 to 30 feet. Focus on removing dead and dying trees.

PRESCRIPTION CHANGE PREPARED BY:
